What Are Tree Sprouts?

Before we talk about how to make money selling tree sprouts, let's define what they even are. This is harder than you might think. Browse around online, particularly in gardening forums, and you'll discover it's a point of contention because many people use the term to define different phases of a tree's growth.

Sprouts Are a Stage of Tree Growth

Trees grow in stages. Some of them are obvious. For example, seeds become saplings, seeds being an earlier stage of the process and saplings being the first few feet of tree growth. But some, like sprouts, are less obvious or agreed-upon. Different ways people define tree sprouts include:

- Some say a sprout is the same as a sapling. But even a sapling definition varies. It's a small still-growing tree, but is it under one foot tall or three feet tall?
- Others say that the five stages are seed, sprout, seedling, sapling, and tree. In this instance, then, the sprout is smaller than a seedling.
- Along those lines, some use seed and sprout interchangeably, and others say that a sprout is a seed that has just broken through the soil.

Generally speaking, we can say that tree sprouts are trees that have sprouted from their seeds and are growing but are in the early stages of growth.
