

Vinegar Uses In Garden

1. **Clay Pot Cleaning:** Vinegar will remove the white salt buildup on old clay pots. Simply soak the affected areas in full strength vinegar.
2. **Kill Grass:** Undiluted vinegar will kill grass between bricks and sidewalk cracks. Simply spray where needed.
3. **Kill Weeds:** Spraying full strength vinegar on weeds will kill them – be careful not to spray it on the surrounding grass as it will kill that too.

4. **Deter Ants:** Spray vinegar around doors, appliances, and along other areas where ants are known to gather and the vinegar will keep them away.
5. **Keep Cats Away:** Vinegar will help keep cats away from areas you don't want them. Sprinkle vinegar on any areas where you don't want the cat walking, sleeping, or scratching.
6. **Freshen Cut Flowers:** Vinegar will help fresh cut flowers last longer. Add 2 tablespoons of vinegar and 1 teaspoon sugar for each quart of water.
